

On a scale from 1-5, with 1 being “not at all” and 5 being “completely”, please rate the extent to which you can describe how these topics relate to HIV stigma and discrimination:

Power, Privilege, and Oppression	1	2	3	4	5
Criminalization	1	2	3	4	5
Implicit Bias	1	2	3	4	5
Intersectionality	1	2	3	4	5
Internalized, Interpersonal, and Institutionalized Stigma	1	2	3	4	5
Medical Mistrust	1	2	3	4	5
Social Determinants of Health and Structural Barriers	1	2	3	4	5
Cultural Competency vs Culturally Responsive Care	1	2	3	4	5
HIV Disparities Across Populations	1	2	3	4	5
Other:	1	2	3	4	5

Please expand on any of your answers above:

This training is focused on unpacking stigma in our communities to help inform our response to the HIV epidemics. What are the most pressing stigma-related issues affecting the response to HIV in your context?

Do you have any examples or personal testimony on how stigma has impacted the response to HIV for you or your community?

Would you be willing to present at the Stigma Conversation your experiences or expertise on stigma?

Which type of training environment appeals to you most? Select only up to two.
