2:30 – 4:30 PM **WORKSHOPS**

Stranahan A **Reimagining Our Approach to Status Neutral Prevention**
Speaker: Nicole Elinoff, NASTAD

A status neutral approach to HIV-related service delivery aims to deliver high-quality, culturally affirming health care and services at every engagement, supporting optimal health for people, regardless of their status. This session will explore what it means to be status-neutral, share benefits of this approach, review peer models, and identify action items that can be implemented across organizations.

Stranahan B **Building Better Community Partnerships**
Speaker: Jacobi Hunter-Wright, AIDS United

Successful programs across jurisdictions have consistently found new strategies to build partnerships within their community, while navigating tight budgets. As CBOs continue to provide comprehensive HIV prevention and treatment services to their clients, community partners play a pivotal role in ensuring all persons who need support are engaged effectively to receive care. This session will highlight peer-to-peer examples, identify best practices for partnership across jurisdictions, and explore opportunities for expanded collaboration.

Las Olas **HIV Leadership: The Next Generation**
Speaker: Andrew Crawford, NASTAD

As the HIV workforce across sectors, jurisdictions, organizations, and government begins to transform, new and creative solutions to engage the changing landscape of work will be key to ending the epidemic. This session will explore successful strategies to recruit and maintain youth in the HIV workforce, while identifying areas for growth in engagement and leadership development that need to be addressed.
